---

## ■ Career Objective

Motivated and detail-oriented Frontend Developer with solid skills in HTML, CSS, JavaScript, TypeScript, React, and modern UI frameworks. Passionate about building clean, responsive, and user-focused web applications. Currently completing advanced frontend training at Jasseh Code Camp (JCC) and eager to contribute to a dynamic development team while growing into a highly skilled professional developer.

## ■ Skills

**Languages & Frameworks:** HTML, CSS, Bootstrap, JavaScript (ES6+), TypeScript, React (JavaScript & TypeScript), Tailwind CSS

**Tools & Workflow:** Git/GitHub, Vercel, Responsive Design, UI/UX Best Practices

**Core Competencies:** Problem-solving, collaboration, clean code, adaptability

## ■ Projects

**StoreCom (E-commerce Website)** – React (JavaScript), Tailwind CSS, React Router

Built a modern online store with product listings, cart, and checkout functionality. Collaborated with a senior developer responsible for the backend while focusing on the frontend design and implementation.

**Sneakers Website** – React (JavaScript), Tailwind CSS, Reducer, Context API

Created a sneaker showcase platform with global state management using Reducer and Context API.

**Personal Finance App** – React (TypeScript), Tailwind CSS, React Router

Developed a personal finance tracker for expenses and budgeting with dynamic routing and clean UI.

**Inventory Management System** – React (TypeScript), Tailwind CSS, Reducer, Context API

Built a system to manage product inventory efficiently, using global state management and responsive design.

## ■ Education

**Jasseh Code Camp (JCC)** – Frontend Development Program

- Frontend Development 1 (Completed)
- Frontend Development 2 (Final stage of frontend track, awaiting certification)

**Senior Secondary School Certificate (WASSCE)** – The Gambia

## ■ References

**Muhammed Bojang** – Senior Developer, Next Gen Agency
